# AMUSEMENTS.

The Theater. The "Jack and Jill" pantomime troupe gave another interesting entertainment at the Theater last night. The entire performance was excellent, and presented a variety of meritorious features that ept the house in continuous laughter. in fact, this comic pantomime is not only skilfully presented, but is one of the best, in its character that we have ever seen. The magic tricks are especially attractive, and of such nature as to interest the oldest and amuse the The Lauglois brothers are ugglers of unusual merit, and do everything they attempt with wonderful ease and precision, from the catching of balls and bottles to the handling of fire-trands. Mr. Maplin is an excellent harlequin, and in addition to other feats, gives an amusing spade-dance. But we bave not space to give anything like a full mention of the "Jack and Jili" comic pantomime, which deserves to be seen; for it will afford mirth, fun and pleasure to every spectator. This after-noon a grand matinee will be given; and as this closes the "Jack and Jill" and undetermined by the courts. Gentlemen-It affords me great pleasure to submit herewith, for your approval, the final report of the board of equalization, exhibiting the agreeable fact that the personal property of our citizens liable for taxation is \$9,207,324. The labor assigned to the board has been well and faithfully performed, entitling the members to the thanks of your hon-orable body. I hope you will be pleased with and confirm the equalization. Very respectfully, JOHN LOAGUE, Mayor.

Neely became a member of the board, to fill the place of John C. Fizer, resigned, and on the fifteenth of February Napoleon Hill was recommended by the board and appointed by the mayor to a place vacated by resignation. The board held twenty regular and twelve committee meetings for the con-sideration of assessments. One of the most difficult matters that came before us was to determine upon an equitable and satisfactory basis of assessing the capital of banks and insurance companies. These corporations, we learn, are largely indebted to the city for back taxes, most of which was in litigation power or authority to act upon these past due taxes, and our action in refer-
